

Marking Criteria	(zero)	Poor	Less Than Adequate	Adequate	Good	Very Good	Excellent	Outstanding
	0	Hard Fail	Soft Fail	III	II.ii	II.i	I	
	0	1				2		
Basic Information, formatting, etc. (20%)	Missing or completely wrong	The text format has covered many or most of the requirements. Some or most of the necessary information (Student ID, name, CW details, etc) is present Report is structured to an OK or good standard, presenting the work using technical language that is consistent in most/all of the entire report. There may be some (maybe a lot of) typos in the document and the intended meaning may not always be clear throughout				The text format has covered all of the requirements. All necessary information (Student ID, name, CW details, etc) is present Report is structured to a good or very good standard, presenting the work using technical language that is consistent in the entire report. There are no (or very few) typos in the document and the intended meaning is clear throughout		
Description and examples of the topic Firewall (30%)	0	1				2		3
	Missing or completely wrong	A limited knowledge of the topic. Knowledge of the topic is at a superficial level.	OK or good presentation of explanation and description in why we are using firewall and how a protocol can be used to circumvent firewall restrictions. Examples are given of use SSH tunnelling. Knowledge of the topic is at a superficial level.		Very good or excellent presentation of explanation and description in why we are using firewall and how a protocol can be used to circumvent firewall restrictions. Examples are given of use SSH tunnelling. Knowledge of the topic is fully relevant.		Outstanding presentation of explanation and description in why we are using firewall and how a protocol can be used to circumvent firewall restrictions. Examples are given of use SSH tunnelling. No mistakes. Full and comprehensive.	
(Objective) Justification elements (30%)	0	1				2		3
	Missing or completely wrong	Poor or superficial justification of the topic, e.g., very limited or unacceptable justifications without any provenance	OK or good objective justification of the topic. OK or good references to support. Some mistakes.		Very good or excellent objective evidence and justification of the topic. Very good or excellent references to support. Small or no mistakes.		Outstanding objective justification of the topic. Relevant, excellent references to support. Excellent objective evidence and justification. No mistakes. Full and comprehensive.	
(Subjective) Justification elements, including reflection (20%)	0	1				2		
	Missing or completely wrong	Limited subjective justification. Superficial reflection, e.g. limited to factual statements in reflection.	OK or good subjective/personal justification. OK or good reflection, e.g., comments made about plan, execution, improvements, mistakes, areas of delay and adjustments made. Maybe reference to a reflection model. (Maybe not)		Very good, excellent, or outstanding (subjective/personal) justification. Justification clearly relates to personal experience (in labs or elsewhere). Very good reflection, perhaps with explicit reflection model and explanation.			

Details
Include your name, student ID, module code, coursework number, date.
Your submission file's name should be named using your student ID i.e. studentID_report
Your cover page, references, and appendices are not included in the word count
